Making A
Difference—
One Child At
A Time

How We Work

Jackson Alternative School is a unique school that serves as a setting for students who have difficulty functioning on a regular school campus. Even though it is a restrictive environment, our mission is to rehabilitate our students so that they can return to a less restrictive environment upon completion of our program.

We provide individualized academic instruction, behavior management systems, vocational training, counseling, social skills therapy, and credit recovery.

Center for the Advancement of Children's Learning (CACL)

CACL serves students from Pre-K through 12th grade who display emotional and behavioral difficulties. With a student : staff ratio of 3:1, students are offered intensive behavior

modification, academic tutoring and counseling services. The goal of the program is to enable students to transition to a less restrictive environment.

Alternative Choices Education (ACE)

ACE serves students in grades 6-12 who are referred because of chronic disruptive behavior, truancy, and/or violations of zero tolerance rules. Students work through a behavior levels system to earn

their way back to the school of their choice. ACE also offers GED prep courses for interested students.

Credit Program Recovery (CPR)

CPR serves students who are 2, 3 or more grades behind their appropriate "age" group. This class is a web-based, self-paced program aligned with grade level Sunshine State Standards. A+ Curriculum is the current program being used.

We invite you to come for a visit and tour of our campus so that you can see for yourself how we are helping students with a second chance for an education.
