

JCSB Mission Statement

The mission of the Jackson County Public School District is to maintain systems that focus all resources on helping students achieve their highest potential.

- We believe that schools should be safe with a climate conducive for learning.
- We believe that teachers are the primary facilitators of learning.
- We believe teachers and staff should work cooperatively to ensure educational and social development of students.
- We believe that it is critical for the District to provide ongoing training and development and to nurture each employee.
- We believe children are our greatest natural resource and that, from entrance to exit, each staff member of the System is a Chief Advocate for students.
- We believe that partnerships among school, parents, and families, and other community agencies are contributors to success for learners.
- We believe that learning should be the focus of all school activities.
- We believe the Leadership Team (school and district level) is the primary factor in leading and encouraging a positive learning environment.
- We believe that positive parental involvement is crucial for the education of students both inside and outside of the school environment.
- We believe that responsibility for provision of support for families should be shared by both school and community.
- We believe that students should become responsible, productive members of society.
